2020 Rider Safety & ADA Guide

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of an individual to safely experience the ride. Extremely large or small individuals, Guests who have heart, back or neck trouble, pregnant women, people who have had recent surgery, people with casts, braces, restrictive devices or certain disabilities may not be safely accommodated by these systems. For example, height requirements are based on the size needed for safety restraints to function properly and the level of maturity usually associated with a certain height. Alabama Adventure's Ride Accessibility Policies have been developed in consultation with industry professionals, based on the recommendations of the manufacturer, our past experience and our evaluation of each ride using our knowledge of the ride in both normal and emergency operating conditions. Our prime consideration is the ability of each person to endure the dynamics of a ride without risk of injury to that person or other riders. Any Guest who feels they may be affected by this policy is encouraged to visit Guest Relations to receive further information.

WARNING

Many rides at Alabama Adventure are dynamic and thrilling. There are inherent risks in riding any amusement ride. For your protection, each ride offers an explanation of its special features, such as high speeds, steep drops, sharp turns, or other dynamic forces. If you choose to ride, you accept all of these risks. Restrictions for Guests of extreme size (height or weight) are posted at certain rides. Guests with disabilities should refer to the Ride Accessibility Policy section of this guide. You should be in good health to ride safely. You know your physical conditions and limitations, Alabama Adventure does not. If you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE!** All passenger restraint systems, including lap bars, shoulder harnesses and seatbelts, must be positioned, fastened and tightened properly to allow Guests to ride.

Riders must obey all warnings and directions regarding amusement park rides and behave in a manner that will not cause or contribute to injury to themselves or others. This includes people who are behaving in an unruly fashion or giving the indication of being under the influence of alcohol or chemical intoxicants. While all amusement attractions have associated risks, certain individuals are at increased risk for injury from these attractions. Carefully evaluate each attraction to determine if you or members of your party can safely participate. We reserve the right to deny access to a ride to anyone we feel may not be able to safely experience the ride or may be a hazard to other riders.

Before riding, note all safety warnings for each ride. In general:

- Remain seated and face forward in an upright position at all times.
- Keep all parts of your body inside the ride unit at all times.
- Loose Articles, including cellphones, backpacks, purses, towels, Etc. are not permitted on this ride. Glasses must be secured. Alabama Adventure is not responsible for lost, stolen or damaged items.
- No smoking while in line or riding.
- Finish all food, drink and gum before boarding.
- All passenger restraint systems, including lap bars, shoulder harnesses and seatbelts, must be positioned, fastened and tightened at all times.
- No picture/video taking while riding.
- Line Jumping, for any reason, is strictly prohibited.
- Shirts, shorts and shoes are required on all rides.
- Obey instructions of Park Staff. Failure to follow instructions may result in injury to yourself or others.

Special Access Entrances

Alabama Adventure's Ride Accessibility Policies and Special Access Entrances are designed to help you safely experience our facilities. Special Access designations will make boarding easier. The safety of our Guests and Team Members is our #1 Priority at Alabama Adventure. Safety is a shared partnership between the park and our Guests. Guests are asked to review and carefully consider the ride restrictions using good judgment. However, we reserve the right to make the final decision regarding eligibility of a rider based on a person's size, weight or other limitations. Furthermore, not everyone can safely enjoy every ride with a Special Access Entrance. Please refer to the individual Ride Accessibility Policy list for rides that will safely accommodate you. In an effort to be fair to all of our Guests, Guests with Restricted Mobility and up to 3 riding companions may enter via our Special Access entrance after any additional members of the party waits in line. This service is for Guests with Restricted Mobility and up to 3 riding companions and may only be used in frequencies which meet that ride's current wait time. (ex. If the ride's wait time is 1 hour, the Special Access Entrance may be used at a frequency of once per hour.) The following guidelines will be of assistance when using Special Access Entrances.

1. Only 3 riding companions may enter through the Special Access Entrance with you. Other members of your party are asked to enter the ride in the standard manner through the line. Most Special Access Entrances are intended to accommodate wheelchairs and those Guests with Restricted Mobility and not to bypass others waiting in line.
2. Until your party reaches the boarding platform, you may rest in a comfortable location or enjoy other attractions in the area.
3. If you wish to ride together, once your party is ready to board, you may enter through the Special Access Entrance. Those members of the party who waited in line should advise the ride hosts that you will be joining them.
4. Alabama Adventure personnel are not trained nor permitted to transfer Guests from a wheelchair to a ride unit. You should plan your visit with someone who can physically help you when necessary.
5. Not all rides have a Special Access Entrance. If in doubt, please refer to individual ride listings for locations.
6. The Guests with Restricted Mobility must ride in order for his/her party to use the Special Access Entrance. If the Guest with restricted mobility chooses not to ride, his/her party must wait in line.

Guests of Exceptional Size

All passenger restraint systems, including lap bars, shoulder harnesses and seatbelts, must be positioned and fastened properly to allow Guests to ride. Due to rider restraint system requirements, Guests of exceptional size may not be accommodated on some of our rides. This may apply, but not be limited to, Guests who exceed 6'2" or those who exceed 225 pounds, have a 40" waistline or 52" chest.

Loose Articles: Travel Light

When planning your day at Alabama Adventure, it's best to travel light. Bring only items that can be safely secured in cargo pockets (fastened with Velcro, a button or zipper) or a waist pack fastened with a zipper. Most rides cannot accommodate loose articles including cell phones, pagers, hats, cameras, stuffed animals, purses, backpacks, basketballs, umbrellas, beverage containers, personal entertainment devices, etc. Items must be safely secured in cargo pockets, a waist pack, in a bin on the ride platform, left in a locker, or with a non-rider. Ride Operators cannot be responsible for these items. On most rides, glasses must be secured by an athletic strap or they cannot be worn on the ride. For safety reasons, taking pictures, videotaping and filming on rides is prohibited.

Lost & Found Articles

Secure all loose articles such as glasses, cellular phones, pagers, loose change, cameras, keys, clothing, sunglasses, hats, wallets, etc., before you board a ride. All items found at Alabama Adventure are turned in to our Lost and Found Department at our Guest Relations Office located near the Front Gate. In order to keep the ride in operation, an immediate search may not be possible (Items will be searched for after the park has closed for the day). Please visit Guest Relations to complete paperwork to ensure the item is returned to you if it's found. For your safety, do not enter restricted areas. You may be seriously injured or killed if you enter a restricted area.

Camera Policy

For safety reasons, we cannot permit on-ride photography of any kind on any ride other than the Splash Express and the Royal Express. Use of camera phones or any type of photography or video recording devices is prohibited in all restrooms and changing areas.

Dress Code

Alabama Adventure has dress codes designed to maintain the park's family atmosphere and to ensure guest safety.

- We do not allow clothing generally considered offensive. Profanity, obscene gestures, obscene statements, pictures of illegal substances, all gang related items or clothing, costumes or disguises that conceal identity and adult full-face makeup are prohibited.
- Alabama Adventure reserves the right to refuse admission to anyone who refuses to comply with the dress code. If you have any concerns about your dress, please contact the Guest Relations office.
- Shirts, shorts and shoes must be worn at all times, including entering or leaving the front gate. Swimwear must be sufficiently covered.
- Swimwear is not permitted on any rides or attractions on the Amusement Park side of the park. All rides and attractions require a minimum of shorts and a shirt that covers the Guest's entire front side and the Guest's back, up to their shoulder blades. Shoes are also required to enter any ride area.

Splash Adventure Water Park:

- Proper swimwear is required to enjoy the Water Park.
- Male guests must have shorts or swimming attire. Female guests must have a swimsuit or shorts and a swimsuit top. A sports bra can be worn as long as it is dark in color and not transparent.
- Thong swimsuits are NOT permitted.
- No denim/jean shorts or shorts below the knee. Clothing must be hemmed with no frayed edges or metal objects (rivets, buckles, etc.) Shirts are permitted on the slides but are discouraged since they may slow a guest's progress down the slide.
- Swimsuit diapers are required for all diaper dependent guests. Swimsuit diapers are available for purchase at Coconut Cove.
- Life vests, hats or bathing caps are prohibited on the slides. Foam water noodles, beach balls, air mattresses, inner tubes and lifejackets that are not coast guard approved are prohibited.

- No excessive jewelry on the slides. Minimal jewelry such as a wedding ring, watch or neck chain is permitted. Eyeglasses and sunglasses must have a safety strap and may be required to be held on certain attractions.
- Guests must change into regular clothes (shirts, shorts, and shoes) before returning to the main park.

Special Services

Our goal is to make Alabama Adventure as enjoyable and barrier-free as safely possible. Listed below are some of the services we offer. Please feel free to suggest areas in which we might improve in the future.

1. On most rides, Guests in wheelchairs will have to transfer out of their wheelchairs and into the ride vehicle.
2. A limited supply of wheelchairs is available to rent at the Emporium, located on Main Street. However, since wheelchairs are rented on a first-come, first-served basis and cannot be reserved in advance, we urge Guests to bring their own wheelchair. Rented wheel chairs are not allowed to be taken outside the park gates to the Guest's car.
3. Our First Aid Station is staffed from park open to close. Refrigeration for medication is available at First Aid, and most medical equipment can be stored.
4. Handicap parking is available for Guests needing it. Permits are required to use these spaces.
5. All shows and most attractions are accessible.
6. Although outside food is not allowed to be brought into the park, individuals who have special need/diet items due to a medical condition, may bring small amounts of these items and store them in First Aid to accommodate such needs.
7. Service animals are welcome at Alabama Adventure. Service animals must be physically controlled on a leash or harness at all times. Due the nature of most rides, service animals must remain with a non-riding member of the Guest's party. Alabama Adventure personnel are not permitted to take control of service animals. Guests whose service animals demonstrate aggressive actions toward our Guests or employees will be directed to remove the animal from the park. Guests must pick up after all Service Animals. Limit one service animal per Guest.
8. If you need further information or have a special need that is not addressed here, please contact Guest Relations.

Basic Information

In general, all riders should be in good health and free from any conditions known or unknown that might be aggravated by riding. To ride, Guests must have the ability to brace themselves upright in the seat and support their head and neck during the ride movements.

Casts and Braces

Guests with casts and braces will be restricted from riding rides where the cast or brace will not fit inside the ride unit or where it will present a hazard to the Guest or others. Guests with full arm (elbow restricted) and full leg (knee restricted) casts or braces are restricted from most rides and slides. Guests with permitted arm or leg casts must be seated in an outer seat, with the cast away from all other guests, and the ride's restraints must fully, and properly close.

Pregnant Women

It is strongly recommended that pregnant women refrain from riding all rides.

Prosthetic Devices

Riders with any type of prosthetic device can enjoy most attractions, providing they can ensure the device is properly secured and will remain in place during the ride. All riders must be able to maintain the proper riding position and the prosthetic device must not interfere with the restraint system of the ride. If there is any concern of the prosthetic device becoming dislodged during the ride, Guests should remove the prosthetic device or visit the Guest Relations Office for assistance. Guests with prosthetic limbs are recommended to consult with Guest Relations prior to waiting in line or riding any of Alabama Adventure's attractions.

Additionally, Prosthetic devices must not have any exposed metal or rough edges in order to be permitted on the slides in the Water Park. See the Splash Adventure Water Park section of this guide for more details.

Recent Surgery, Heart, Back, Neck Problems and/or Pregnancy

Guests with a history of recent surgery, heart trouble/high blood pressure, neck trouble, back trouble, or any other condition that may be aggravated by riding, or who are pregnant, should carefully heed all warning signs at each ride entrance. If you are in doubt about your ability to safely experience a ride or would like more rider information, please visit the Guest Relations Office.

Ride Evacuations

Evacuations may be required due to such causes as a mechanical problem, weather conditions, or power interruption. If an evacuation is required, Guests may need to maneuver across catwalks, from the highest point of the ride, and down steeply inclined catwalks or steps. Ride units may also stop at the top of lifts or on the ride course due to mechanical reasons. If evacuation from a ride/attraction is required, for safety reasons, we may evacuate ambulatory Guests prior to evacuating those Guests using wheelchairs. If so, you accept any danger due to delayed evacuation or if we need to physically lift or lower you.

Service Animals

Service animals are welcome at Alabama Adventure. A service animal is defined as a dog or miniature pony that has been individually trained to perform tasks for a person with disabilities. We may ask you what task your service animal performs for you. Service animals must be controlled with a "restraining device" at all times while on our property. There is a limit of one service animal per guest. Due to the nature of most rides, service animals must remain with a non-riding member of your party. We are not permitted to take control of your service animal. Service animals are not permitted in water attractions, wet decks, wading pools, or lazy rivers. A relief area is located outside of the Front Gate near the Parking Lot. Please clean up after your animal. Stop by Guest Relations for more information.

Definitions

Alabama Adventure's Ride Accessibility Policy is designed to allow our Guests to participate in the enjoyment of our park as much as possible. These policies were developed by analyzing the Minimum Criteria required to safely ride each particular ride. Each ride was evaluated for the criteria necessary for an individual to ride safely. It is our policy to allow anyone to ride who meets all these requirements and is not a hazard to their self or others. We continue to evaluate and update our Ride Accessibility Policy as necessary.

The following terms and definitions are used on our safety signage and throughout this guide:

Ability to Enter/Exit the Attraction within Specified Parameters without Endangering Self or Others:

Guests must be able to enter and exit the ride without jeopardizing the safety of themselves or others and to assist with their own evacuation, if necessary. This may include special arrangements such as entering through the exit or having someone aid you in boarding. For the safety of our team members and Guests, ride operators are instructed not to perform any lifting of Guests, due to safety precautions.

Ability to Grasp or Brace: Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace and maintain a seated position during the forces of the ride.

Ability to Sit Upright: The Guest must have the body and spinal control to maintain the proper riding position throughout the duration of the attraction without the aid of others or devices, and be able to maintain the proper riding position even during the dynamic motion of the attraction (fast accelerations, quick decelerations, steep inclines, etc.).

Accompanied By: Whenever a Guest needs accompaniment, the accompanying person must meet all the ride requirements, as well as assist the Guest. This includes helping the Guest board and exit the ride, assisting the Guest in maintaining postural control while riding, and assisting the Guest down stairs, catwalks, or ladders.

Appropriate Observed Behavior: Guest demonstrates appropriate observed behavior indicating a willingness and ability to participate and/or follow rider requirements. Appropriate observed behavior may include, but not be limited to, maintaining proper riding position, attention and compliance to safety instructions, proper use of all ride safety equipment and willingness to participate.

Arm to the Elbow: A naturally formed arm at least to the elbow with sufficient length to be restrained by a Shoulder Bar.

Complete Extremity: A Complete Extremity is a full-length limb that the person may or may not have control over. Rides that require only a Complete Extremity permit prosthetic devices, providing they are properly secured.

Infant: A hand-held infant is a child who is unable to walk 3 steps to the ride unit independently or maintain independent seated postural control.

Functioning Extremity: A Functioning Extremity is a limb over which a person has control. Rides that require only a Functioning Extremity permit prosthetic devices, providing they are properly secured.

Functional Hand: A Functional Hand is a hand, Naturally Formed or prosthetic, over which a person has control and has the ability to grasp.

Four (4) Fully Functional Limbs: Four (4) full length limbs over which a person has full control. These limbs may be naturally formed or prosthetic.

Full-Arm and Full-Leg Casts: Any cast that prevents the arm from bending at the elbow or the leg from bending at the knee is considered a “full” cast.

Full Body Control: The Guest must have sufficient muscle control to support head, neck, and upper torso during the course of the ride, including the dynamic motion of the ride (fast accelerations, quick decelerations, steep inclines, etc.).

Leg to the Knee: A naturally formed leg, at least to the knee, with sufficient length to be restrained by a Lap Bar.

Naturally Formed Functioning Extremity: A Functioning Extremity is a limb over which a person has control. Rides that require a Naturally Formed Functioning Extremity do not permit prosthetic devices.

Proper Weight Distribution: The weight distribution of the Guest’s body must not interfere with any of the attraction’s safety and restraint devices as they were designed.

Responsible Person: A responsible person is someone who meets all the requirements to ride the ride themselves, is 16 years of age or older, and demonstrates Appropriate Observed Behavior.

Three (3) Limbs in Any Combination: One (1) Naturally Formed Arm at least to the elbow with sufficient length to be restrained by a Shoulder Bar and two (2) Naturally Formed Legs at least to the knee with sufficient length to be restrained by a Lap Bar ~OR~ two (2) Naturally Formed Arms at least to the elbow with sufficient length to be restrained by a Shoulder Bar and one (1) Naturally Formed Leg at least to the knee with sufficient length to be restrained by a Lap Bar.

RIDE ACCESSIBILITY POLICIES: The following descriptions are designed to give you information on the type of actions caused by various rides and the basic requirements needed to participate. If you have been authorized for **Special Access**, follow the directions listed under each ride.

ALABAMA ADVENTURE AMUSEMENT PARK:

Centi Speed

Description: A child sized roller coaster with small dips, turns, and sudden stops.

Height/Weight Requirement: Must be at least 42 inches to ride alone. Guests between 36 and 42 inches must be accompanied by a **Responsible Person**. One Adult may ride per car.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly restrained by a lap bar.
- Guests must have a minimum of two (2) Legs to the Knee and one (1) Arm to the Elbow.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Lap bar and seatbelt must be securely fastened at all times.

ADA Access: **Special Access** is located at the ride EXIT. (Guests with disabilities should be accompanied by a responsible person who is capable of evacuating them from heights in case of emergency.)

Cheddar Chase

Description: A family roller coaster with tight turns, steep drops and sudden stops.

Height/Weight Requirement: Must be at least 48 inches to ride.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly restrained by a lap bar.
- Guests must have a minimum of two (2) Legs to the Knee and one (1) Arm to the Elbow.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Lap bar and seatbelt must be securely fastened at all times.

ADA Access: **Special Access** is located at the ride EXIT. (Guests with disabilities should be accompanied by a responsible person who is capable of evacuating them from heights in case of emergency.)

Drop Zone

Description: A family drop ride that bounces up and down and which produces moderate up and down forces.

Height/Weight Requirement: Must be at least 42 inches tall to ride alone. Guests between 36 and 42 inches may ride with a **Responsible Person**. Only 2 Adults per ride. Total weight must not exceed 990 pounds.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly restrained by an Over the Shoulder Harness.
- Guests must have a minimum of two (2) Legs to the Knee and one (1) Arm to the Elbow.
- Must be able to transfer into the ride vehicle without operator assistance.
- Riders with any type of prosthesis should not ride unless they can ensure the device is properly secured and will remain in place during the ride. Riders may remove medical devices/prosthesis, providing they meet all requirements listed above.

Description of Safety Restraint: The over the shoulder restraint must be securely fastened at all times.

ADA Access: **Special Access** is located at the ride EXIT.

Galleon

Description: A swinging pirate ship ride, with high, wave-like motions.

Height/Weight Requirement: Must be at least 48 inches tall to ride alone. Guests between 36 and 48 inches must be accompanied by a **Responsible Person**.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly restrained by a Lap Bar.
- Guests must have a minimum of two (2) Legs to the Knee and one (1) Arm to the Elbow.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Multi-Passenger lap bars must be securely fastened and tightened at all times.

ADA Access: **Special Access** is located at the ride EXIT.

Jump Around

Description: Guests can expect moderate up and down, and side to side forces throughout this circular child's ride.

Height/Weight Requirement: Must be at least 36" inches tall to ride. Maximum weight limit of 382 pounds per Frog. Only One Adult per Frog.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace.
- Guest must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Seatbelts must be securely fastened and tightened at all times.

ADA Access: **Special Access** is located at the ride EXIT.

Little Bumpers

Description: A slow paced, self-driven, bumper boat ride, designed for small children.

Height/Weight Requirement: Must be less than 52 inches tall to ride. Maximum weight limit is 90 pounds per boat. **No Infants.**

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace.
- Guest must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Safety restraints are not utilized on this attraction.

ADA Access: **Special Access** is located at the ride EXIT.

Little Harbor

Description: A slow paced, circular boat ride, designed for small children.

Height/Weight Requirement: Riders must be less than 52 inches tall to ride. Maximum weight limit is 75 pounds per Guest. **No Infants.**

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace.
- Guests must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Seatbelts must be securely fastened and tightened at all times.

ADA Access: **Special Access** is located at the ride ENTRANCE/EXIT.

Little Tractors

Description: An individually pedaled, self-propelled tractor ride, where the Guest controls the speed by physically pedaling their individual car.

Height/Weight Requirement: Must be less than 52 inches tall to ride. Maximum weight limit is 115 pounds per car. **No Infants.**

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace.
- Guest must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Safety restraints are not utilized on this attraction.

ADA Access: **Special Access** is located at the ride EXIT.

Rampage

Description: A wooden roller coaster that provides steep drops, twists, turns, with forces from all directions.

Height/Weight Requirement: Riders must be at least 48 inches tall to ride.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly restrained by a Lap Bar and a Seatbelt.
- Guests must have a minimum of two (2) Legs to the Knee and one (1) Arm to the Elbow.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Seatbelts and Lap Bar must be securely fastened at all times.

ADA Access: **Special Access** is located at the ride EXIT. (Guests with disabilities should be accompanied by a responsible person who is capable of evacuating them from heights in case of emergency.)

Scrambler

Description: Rotating cars are mounted on counter-rotating arms which produces strong accelerations, changing force and direction rapidly.

Height/Weight Requirement: Must be at least 48 inches tall to ride alone. Guests between 36 and 48 inches must be accompanied by a **Responsible Person**. Maximum recommended weight limit is 510 pounds per car.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace.
- Guest must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Seatbelts and grab bars must be securely fastened and tightened at all times.

ADA Access: **Special Access** is located at the ride EXIT.

Splash Express

Description: A miniature train ride on a flat track with mild turns on a circular path.

Height/Weight Requirement: Must be at least 36 inches tall to ride alone. Guests under 36 inches must be accompanied by a **Responsible Person**. One adult is allowed per row, and no adults are allowed in the Engine or Caboose.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace.
- Guests must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Seatbelts must be securely fastened and tightened at all times.

ADA Access: **Special Access** is located at the ride EXIT.

Tea Cups

Description: A children's tea cup ride with moderate circular motion on a spinning axis.

Height/Weight Requirement: Must be at least 36 inches tall to ride alone. Guests under 36 inches must be accompanied by a **Responsible Person**. One Adult may ride per Tea Cup. Maximum weight per cup is 440lbs. **No Infants**.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly restrained by a Seatbelt.
- Guests must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: Seatbelts must be securely fastened and tightened at all times.

ADA Access: **Special Access** is located at the ride EXIT.

Tilt A Whirl

Description: A circular spinning ride in which riders should be prepared for strong side-to-side forces and circular movement.

Height/Weight Requirement: Must be at least 48 inches tall to ride alone. Guests between 36 and 48 inches must ride with a **Responsible Person**. Maximum combined weight of 600 pounds per car.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly secured by a Lap Bar.
- Guests must have a minimum of two (2) limbs in any combination.
- Must be able to transfer into the ride vehicle without operator assistance.

Description of Safety Restraint: A safety lap bar must be in the down position at all times

ADA Access: **Special Access** is located at the ride EXIT.

Vault Laser Challenge

Description: A laser maze challenge, with various lighting and sound effects.

Height/Weight Requirement: This attraction has no specified height/weight restriction.

Physical Requirement:

- A **Responsible Person** may need to assist Guests with additional needs.

Description of Safety Restraint: Safety restraints are not utilized on this attraction.

ADA Access: **Special Access** is located at the ride's ENTRANCE.

YoYo

Description: A chair swing ride with moderate spinning motions, that elevates and tilts high above the ground.

Height/Weight Requirement: Must be at least 42 inches tall to ride. Maximum weight limit is 170 pounds per swing.

Physical Requirement:

- Guests must be able to maintain an upright seated position with the ability to grasp or brace and be properly restrained by a Chest and Waste Seatbelt.
- Guests must have a minimum of two (2) Legs to the Knee and one (1) Arm to the Elbow.
- Must be able to transfer into the ride vehicle without operator assistance.
- Riders with any type of prosthesis should not ride unless they can ensure the device is properly secured and will remain in place during the ride. Riders may remove medical devices/prosthesis, providing they meet all requirements listed above.

Description of Safety Restraint: Seatbelts and safety bar must be securely fastened at all times.

ADA Access: **Special Access** is located at the ride EXIT.

SPLASH ADVENTURE WATER PARK:

Aqua Maze

Description:

An aquatic maze structure, with water features throughout its many, maze-like walls.

Height/Weight Requirement: This attraction has no specified height/weight restriction.

Physical Requirement:

- A **Responsible Person** may need to assist Guests with additional needs.

Description of Safety Restraint: Safety restraints are not utilized on this attraction.

ADA Access: **Special Access** is located at the ride's ENTRANCE.

Cocoa Island

Description: A multi surface water play area, consisting of multiple slides and various other water attractions. This attraction includes play elements, stairs, and slanted surfaces.

Height/Weight Requirement: Must be at least 42 inches tall to ride alone. Guests under 42 inches must be accompanied by a **Responsible Person**. Max weight of 300 lbs.

Physical Requirement:

- Riders must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride.
- Prosthetic devices must not have any exposed metal or sharp edges in order to be permitted on the slides.
- Some medical devices, including hard casts are not permitted
- Riders may remove medical devices or cover any exposed metal or sharp edges with a padded material in order to enjoy the slides, providing they meet all requirements listed above.

Description of Safety Restraint: Safety restraints are not utilized on this attraction.

ADA Access: **Special Access** is via a Zero-Depth entry to the pool surrounding the structure. Those wishing to access the upper sections of the attraction must be accompanied by a **Responsible Person**.

Freefall

Description: 75ft free fall body slide.

Height/Weight Requirement: Riders must be at least 48 inches tall (in bare feet) to ride. Max weight of 300 lbs.

Physical Requirement:

- Riders must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride, with their arms across the chest and feet crossed at all time.
- Prosthetic devices must not have any exposed metal or sharp edges in order to be permitted on the slides.
- Some medical devices, including hard casts are not permitted
- Riders may remove medical devices or cover any exposed metal or sharp edges with a padded material in order to enjoy the slides, providing they meet all requirements listed above.

Description of Safety Restraint: Safety restraints are not utilized on this attraction.

ADA Access: **Special Access** is located through the ride's ENTRANCE. Guests must be able to maneuver multiple staircases to enjoy this ride. Assistance may be given by a **Responsible Person**.

Kahuna Wave Pool

Description: A large wave pool with depths ranging from 0 to 6 feet. Waves run on a "10 minutes on, 10 minutes off" cycle.

Height/Weight Requirement: Must be at least 48 inches tall to ride alone. Guests less than 48 inches may ride if accompanied by a **Responsible Person** and must wear a Life Jacket.

Physical Requirement: Guests must be able to safely enter and exit the attraction and demonstrate appropriate observed behavior.

Description of Safety Restraint: Safety restraints are not utilized on this attraction.

ADA Access: **Special Access** is via a Zero-Depth entry to the pool.

Neptune's Plunge

Description: A slide complex consisting of 4 tube slides. Only double tubes are allowed. Guests should ride on their backs, feet facing forward.

Height/Weight Requirement: Riders must be at least 48 inches tall (in bare feet) to ride. Riders between 42" and 48" tall must be accompanied by a Responsible Person. Max, combined weight of 350 lbs.

Physical Requirement:

- Riders must possess the physical and cognitive abilities to hold themselves in a feet first position throughout the ride.
- Prosthetic devices must not have any exposed metal or sharp edges in order to be permitted on the slides.
- Some medical devices, including hard casts are not permitted
